Siddhartha Nirvan

---

## SUMMARY

"Passionate computer science student proficient in Java, and web development. Seeking an opportunity to apply knowledge, gain experience, and contribute to innovative projects."

---

## PROJECTS

### DevDishes

A dynamic web application that solves the problem of finding recipes by allowing users to search with ingredients they have on hand or by specific dish names.

- **Technologies Used:** HTML5, CSS3, Vanilla JavaScript, Spoonacular API.

### React Portfolio Website

A dynamic personal portfolio built as a single-page application to showcase my skills and projects. Features a responsive design, component-based architecture and smooth navigation.

- **Technologies Used:** React, CSS3, JavaScript (ES6+).

---

## SKILLS

- **Languages:** Java, JavaScript, HTML, CSS, SQL
- **Frontend:** React (Basics), DOM Manipulation, Responsive Web Design
- **Backend:** Core Java
- **Database:** MySQL
- **Tools:** GitHub, VS Code
- **Concepts:** Data Structures and Algorithms(DSA) - Currently Improving

---
